

Tax Professional Team

At Chortek, our goal is to prepare a complete and supportable income tax return, taking advantage of all legal tax deductions, resulting in the lowest allowable income tax liability. The tax return is a product of the action steps developed through our income tax planning services.

We treat your business and business issues as though they were our own, implementing strategies that we would use for ourselves. Many of our experts have owned or managed their own businesses and use that wealth of experience to recognize your tax savings opportunities.
