

Paya's Sage 100 Integration

It's not just payments. It's partnership.

When it comes to choosing a payments solution for your Sage 100 customers, Paya offers more. More options, more security. More ways to connect with your customers. More ways for them to succeed.

Benefits

- **NEW! EMV® Integration.** Count on Paya's encrypted, PCI-compliant Sage 100 integration.
- **NEW! Account Updater 2.0.** Automatically updates stored consumer credit card information.
- **Payment Center.** Increase cash flow by accepting credit/debit and ACH.
- **Level 3 Processing.** Helps qualify customers for lower processing rates.
- **Paya's Advanced Fraud Protection.** Our proprietary fraud database and tokenization of transaction data help to minimize fraud.
- **Easy installation and set-up, no long term contracts, outstanding support.**

Paya was the first – and remains the best – Sage 100 direct integration, with easy onboarding and a powerful and user-friendly payments interface.

Also benefit from:

- **Paya's Sage-certified integrated credit card solution.** Paya is the only processor whose integrated credit card solution is certified by Sage.
- **Paya's Sage-recognized PCI compliance reputation.** Paya is the only Sage processor listed on the PCI website.
- **Same Day Underwriting.** Gets customers processing quickly.
- **Next Day Funding.** Rapid batch processing accelerates cash flow.
- **Integrated ACH Processing.** Built-in ACH enables faster customer payment cycles.
- **Access to Industry Experts.** Collaborate with Paya's team of industry experts to help drive growth.
