Understanding your challenges

sage Data & Analytics

Time and cost of generating essential reports (Sage 100 & Sage 300 reporting) is extremely cumbersome and can take hours

Desire to be better connected to internal & external customers, anywhere, anytime, on any device

Want cohesive insights (understanding of reported numbers) from dashboards, coming from various business management solutions

Inefficient workflow around importing financial and operations data from various branch or various virtual teams working in different time zone into Sage 100 & Sage 300

Ability to make important business decisions in timely manner with easy-to-understand dashboards

Unable to track KPIs that require information from various systems other than Sage 100 & Sage 300
