

THE 2022 WAREHOUSE: DOING MORE WITH LESS

www.ScanForce.com

SCANFORCE WHAT IS IT?

An extension of Sage that captures activity related to the movement of inventory achieved most efficiently using mobile computers and bar code technology.

- Warehouse Management
- Labeling
- Manufacturing
- Mobile Sales

SCANFORCE REVIEW

- Initially released in 1998
- Over 800 Installations and counting
- Over 8000 users on our platform
- First to provide a solution that functions in a connected and disconnected environment
- Direct and seamless communication to Sage
- Sage Selected Multi-Bin Solution

SCANFORCE TECHNOLOGY: PLATFORM

- System designed from the ground up
- Native on Android
- Native on iOS
- Native on Windows
- Powerful, scalable, and stable technology
- Notable clients
 - Penske – over 1000 devices
 - FedEx – Warehouse and Sorting Facilities across US
 - MTV – check-in system at awards shows

SCANFORCE TECHNOLOGY: **SPEED**

- ScanForce Million Record Challenge
 - Imperative aspect of success
 - Loaded 1 MILLION items
 - Many data records to index
 - Return rate of < .03 seconds

ScanForce **Why use it?**

- Reduce/eliminate shipping the wrong product
- Update inventory quantity more timely
- Increase accuracy of collected data with bar codes and validation
- Process more orders in the same amount of time
- Reduce the amount of time to take and reconcile a physical count
- Properly label product while handling it
- With Multi Bin, know what you have and where you have it at any moment in time
- Lower safety stock levels leads to improved cash flow

ScanForce WMS-Moving & Tracking Your Inventory

- ScanForce Warehouse Automation
 - Shipping
 - Receiving
 - Inventory Transactions
 - Efficiency enhancements
- Use Scanners for Accurate Management
 - Gain better insights into staff performance
 - Scan Lot and Serial numbers
 - Reporting on how long it takes to pick items
 - See what is coming in and going out in real time

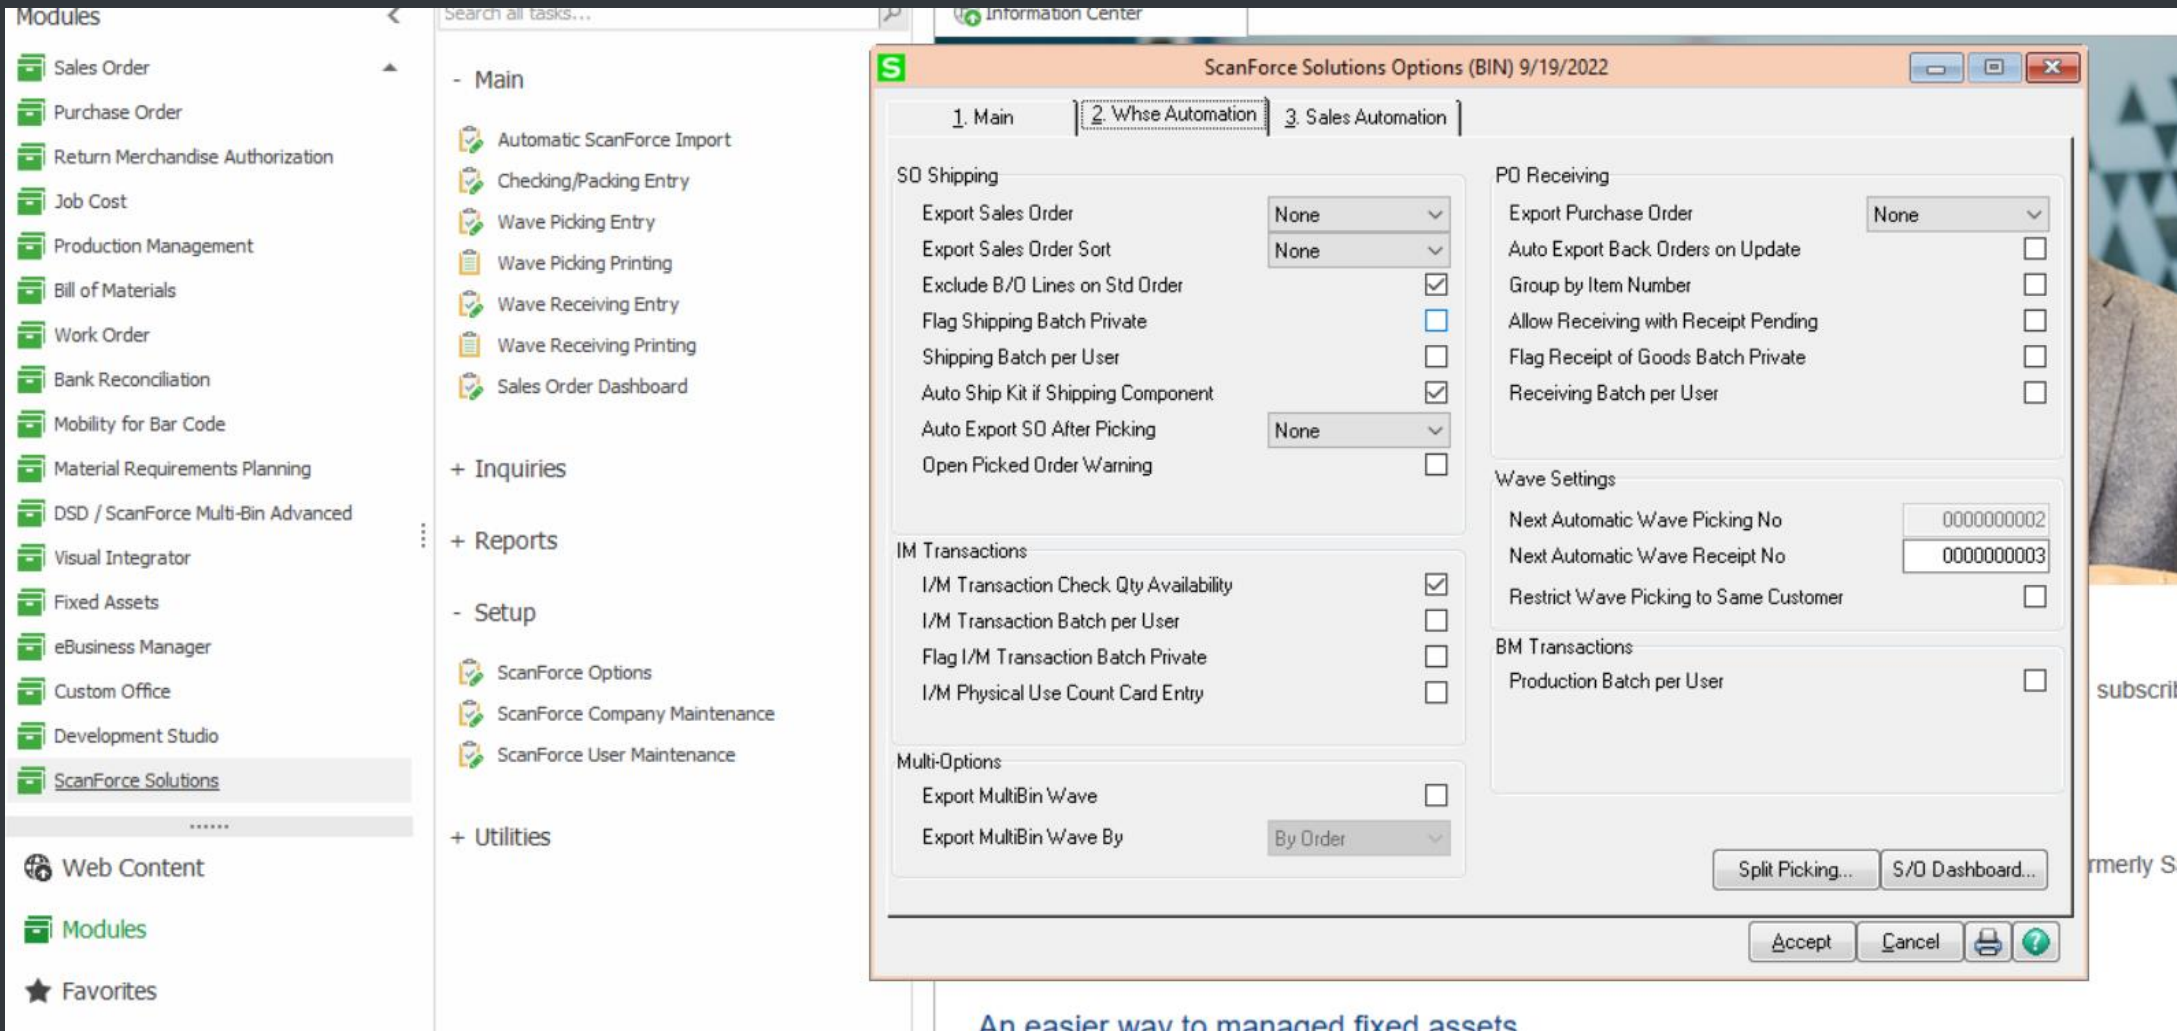

ScanForce Mobile Sales

- ScanForce Mobile Sales
 - Sales Orders
 - Quotes
 - Invoices
 - Inquiries
 - See inventory quantity and images
 - Collect digital signatures
 - See customer past purchase history
- Used by
 - Field Reps
 - Trade Show Sales
 - Counter Sales

A screenshot of the ScanForce Mobile Sales app interface. The screen is divided into several sections. At the top, there's a header with 'Transaction Entry' and 'Sales Order'. Below this, there are tabs for 'HEADER', 'ADDRESS', 'LINES', and 'TOTALS'. The 'LINES' tab is active, showing a list of items on the left and a detailed view of the selected item on the right. The selected item is 'DESK 72" X 30" D1000'. The detailed view includes fields for 'Qty' (1), 'Price' (499.99), 'Disc %' (5), and 'Whse' (000: CENTRAL WAREHOUSE). There are also buttons for 'Add' and 'Cancel'. At the bottom, there's a 'Comment' field and a section for 'QTY ON HAND', 'QTY AVAIL', and 'STD PRICE'. The 'QTY ON HAND' is 5,000, 'QTY AVAIL' is 4,990, and 'STD PRICE' is 0.000. There is also a placeholder for an image that is not available.

ScanForce and Sage 100

- ScanForce Fully Integrated with Sage100

The screenshot displays the Sage 100 ScanForce Solutions Options dialog box, titled "ScanForce Solutions Options (BIN) 9/19/2022". The dialog is divided into three tabs: "1. Main", "2. Whse Automation", and "3. Sales Automation". The "2. Whse Automation" tab is currently selected.

The left sidebar of the Sage 100 application is visible, showing a list of modules including Sales Order, Purchase Order, Return Merchandise Authorization, Job Cost, Production Management, Bill of Materials, Work Order, Bank Reconciliation, Mobility for Bar Code, Material Requirements Planning, DSD / ScanForce Multi-Bin Advanced, Visual Integrator, Fixed Assets, eBusiness Manager, Custom Office, Development Studio, ScanForce Solutions (highlighted), Web Content, Modules, and Favorites.

The main content area of the dialog box is organized into several sections:

- SO Shipping:** Includes options for Export Sales Order (None), Export Sales Order Sort (None), Exclude B/O Lines on Std Order (checked), Flag Shipping Batch Private (unchecked), Shipping Batch per User (unchecked), Auto Ship Kit if Shipping Component (checked), Auto Export SO After Picking (None), and Open Picked Order Warning (unchecked).
- IM Transactions:** Includes options for I/M Transaction Check Qty Availability (checked), I/M Transaction Batch per User (unchecked), Flag I/M Transaction Batch Private (unchecked), and I/M Physical Use Count Card Entry (unchecked).
- Multi-Options:** Includes options for Export MultiBin Wave (unchecked) and Export MultiBin Wave By (By Order).
- PO Receiving:** Includes options for Export Purchase Order (None), Auto Export Back Orders on Update (unchecked), Group by Item Number (unchecked), Allow Receiving with Receipt Pending (unchecked), Flag Receipt of Goods Batch Private (unchecked), and Receiving Batch per User (unchecked).
- Wave Settings:** Includes options for Next Automatic Wave Picking No (0000000002), Next Automatic Wave Receipt No (0000000003), and Restrict Wave Picking to Same Customer (unchecked).
- BM Transactions:** Includes the option for Production Batch per User (unchecked).

At the bottom of the dialog box, there are buttons for "Split Picking...", "S/O Dashboard...", "Accept", "Cancel", and a help icon.

What Manual Processes Give You Today

- Manually Entering Data is a Headache
 - Late paperwork
 - Missing paperwork
 - Hieroglyphics
- Inventory Inaccuracy
 - Inaccurate inventory counts
 - Mystery Items
 - Shipping Errors
 - Inventory with Feet

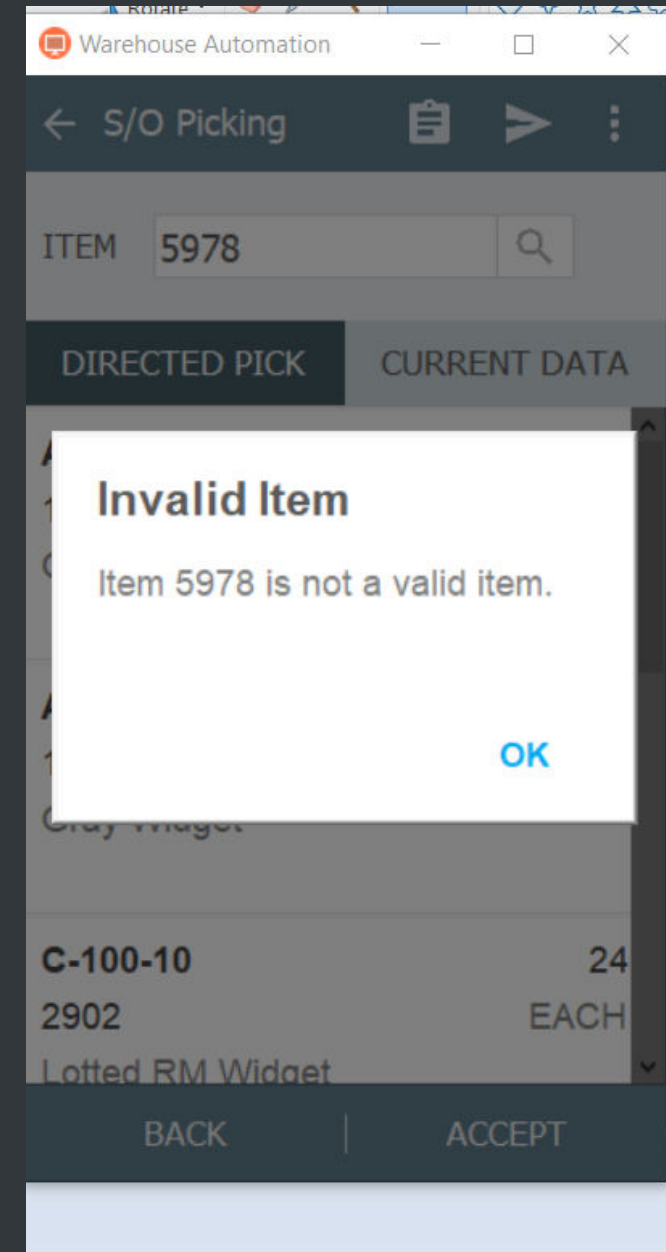

ScanForce – Who uses it?

- ScanForce Warehouse Automation
 - Distribution/Warehousing
 - Light Assembly
 - Food & Beverage
 - Manufacturing
- ScanForce Mobile Sales
 - Field Reps
 - Counter Sales
 - Trade Shows
 - Customer Use – consignment

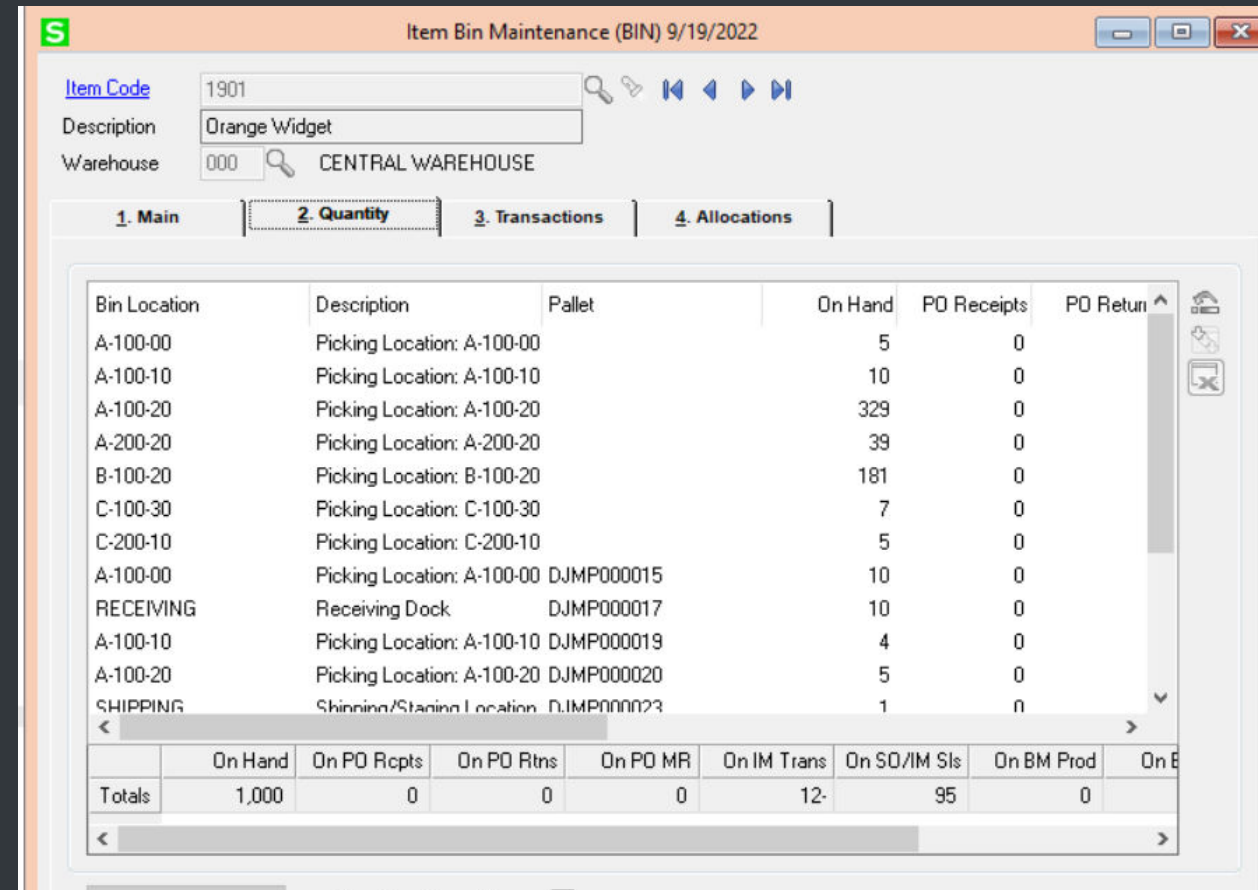

Stop Worrying – Is it right?

- ScanForce Warehouse Automation
 - Validates the right items are picked.
 - That they are picked from the right location.
 - You will know if you have the wrong item.
 - Always get it right the first time.

Sage ScanForce Multi Bin

- Basic edition Included with Sage100
- Advanced edition Free with ScanForce WMS Premium Edition.

The screenshot displays the 'Item Bin Maintenance (BIN) 9/19/2022' window. At the top, the 'Item Code' is 1901, 'Description' is 'Orange Widget', and 'Warehouse' is 000 (CENTRAL WAREHOUSE). The '2. Quantity' tab is selected, showing a table of bin locations and their quantities. The table has columns for Bin Location, Description, Pallet, On Hand, PO Receipts, and PO Return. Below the table is a summary row for 'Totals'.

Bin Location	Description	Pallet	On Hand	PO Receipts	PO Return
A-100-00	Picking Location: A-100-00		5	0	
A-100-10	Picking Location: A-100-10		10	0

Multi Bin

- Store & track an item in multiple bin locations within a warehouse
- More accurate reporting and control over inventory
- Instills discipline in inventory management
 - Auto allocation of bins to sales orders based on 'rules'
 - Directed Put-Away
 - Directed Picking – guide user thru warehouse efficiently
 - Restock depleted bins
 - Live bin transfers

Custom Programming

Add specific features and functionality to meet a client's needs

- Parse 2D codes
- Create/default Lot #, Expiration Date
- Capture SO# when entering BoM Production Entry
- Enter in a range of serial numbers
- Shipping - As items are added onto a package, track the total weight and volume.

SCANFORCE TECHNOLOGY: **EASY TO USE**

- Designed with the user in mind
- Screens are intuitive
- User never has to think, “now what’s next?”
- Architecture designed to be fast
- Clear Screens – not cluttered with too much data

Result: More efficient, minimal learning curve

The screenshot displays the 'I/M Put Away' screen in the Scanforce Warehouse Automation app. The interface is clean and intuitive, featuring a top navigation bar with a back arrow, the title 'I/M Put Away', and icons for a clipboard, a right arrow, and a menu. Below the navigation bar, there is a 'TO LOC' field with a search icon and a barcode scanner icon. The 'PRIMARY LOC' is set to 'C-01-B'. The main content area shows the quantity 'QTY 10', the item number 'ITEM 6655', and the item description 'PRINTER STAND W/ BASKET'. Below this, the 'FROM LOC' is 'RECEIVING' and the 'FROM WHSE' is '000'. At the bottom, there are two large buttons: 'BACK' and 'ACCEPT'.

QTY	ITEM	DESCRIPTION
10	6655	PRINTER STAND W/ BASKET

FROM LOC RECEIVING

FROM WHSE 000

BACK | ACCEPT

SCANFORCE REPORTING: MANAGEMENT CONSOLE

- Scanner users
- Time spent picking
- Labor Tracking
- Import History

The screenshot displays the ScanForce Management Console interface. At the top, there's a navigation bar with tabs for WMS, Sales, and Settings. Below this is a dashboard area with various icons for different functions: Dashboard, Ready To Pick, Being Picked, Ready To Pack, Shipped, Wave SO Selection, Labor Tracking, Purchase Orders, Transactions, Import Status, Import History, and Batch Status. The main section is titled 'Transactions' and includes a 'Refresh' button, an 'Enable Auto Refresh' checkbox, and a filter dropdown set to 'ALL'. Below this is a table with 17 columns: Transaction Date, Device, User, Multi-Company, Company, Xact Type, Transaction Type, Item Code, Comment, Order #, Order Name, Invoice #, Batch #, Time Start, Time Finish, and Time Duration. The table contains 13 rows of data, showing transactions from August 4, 2022, to August 9, 2022. The status bar at the bottom indicates 'Record 1 of 113'.
